

SEE AND FEEL THE DIFFERENCE.

ENERGY EFFICIENCY

ProdigyFactor5.0™

System R-value of 5.0. Prodigy's 1 1/2" insulation provides industry-best energy savings with a system R-value of 5.0 on clapboard and 5.3 on dutch lap and is designed to reduce your energy costs year-round.

ThermoSphere™

Energy Gap Protection. With innovative features like RigidLock and TrueForm™ combined with a fully insulated line of trim and accessories, Prodigy provides an unbroken blanket of insulation.

ENGINEERED PERFORMANCE

TrueForm™

One-Piece Insulated Siding System. Precision contoured insulation bonds securely to the siding panel creating an integrated system that delivers remarkable strength and energy efficiency. This highly-engineered, insulated siding system provides exceptional durability and the strength to withstand Mother Nature, while safeguarding against energy loss.

RigidLock

Secure Interlocking Panel Design. Innovative, patent-pending panel locking design for a tight, secure fit with no insulation gap. This ensures your siding will be securely locked in, will have straight and even course lines, and look great for a lifetime.

MonoWall Integrity™

Structurally Independent Wall System. Structural integrity and rigidly interlocking panels mean Prodigy stands tall on its own. The siding that stands on its own will stand up to almost anything.

INSPIRED BEAUTY

TrueCourse™

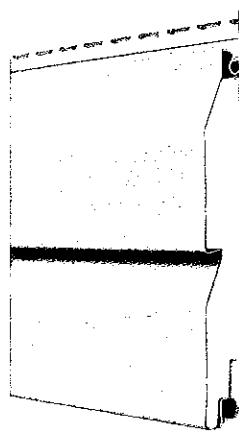

The Look of Hand-Installed Boards. Designed and expertly manufactured to capture the look of traditional single-plank siding. Available in 6" clapboard and 5" dutch lap profiles.

Extended Length

More Panel. Less Seams.
39% longer than a standard 12' panel, the 16' 8" Extended Length panel design yields a straighter, cleaner exterior appearance and fewer overlaps.

TrueWood Look

Crisp, Clean and Subtle. The look and feel of finely milled wood attracts admiration without seeking attention. The understated look is timeless and genuine.

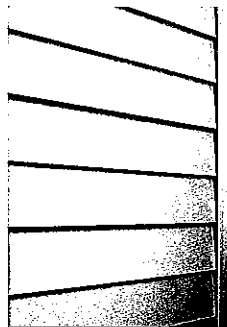

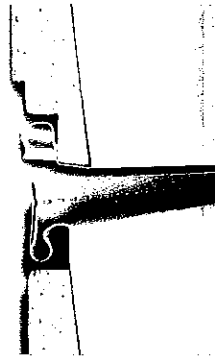

TrueForm™

Traditional vinyl siding is no match for the Prodigy insulated siding system. Prodigy provides unsurpassed protection against energy loss and the distortion and fading caused by extreme weather. Prodigy bonds an inner core of high-density insulation with a durable and beautiful outer layer – creating an integrated system that delivers remarkable strength and performance.

The result: your installer can achieve a uniform outer layer with a beautiful finish that holds true.

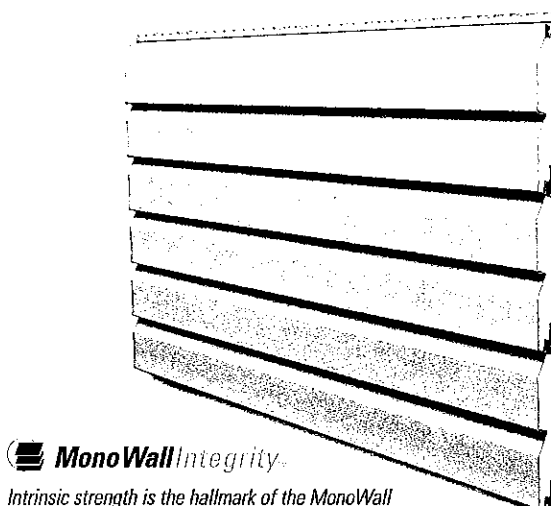

RigidLock

The exclusive RigidLock with tongue-and-groove design means Prodigy stacks firmly and locks in place with a tight connection and a satisfying "snap" that ensures a secure installation and reduced energy gaps.

TrueCourse™

Quality from a different perspective. Prodigy is designed to look just like single, hand-installed boards. Even from the bottom up.

MonoWall Integrity™

Intrinsic strength is the hallmark of the MonoWall Integrity feature. Combining secure locking and panel rigidity, Prodigy creates a veritable wall of its own.
